

CURRICULUM VITAE

DR. C. VINEETH

SPACE PHYSICS LABORATORY
VIKRAM SARABHAI SPACE CENTRE
INDIAN SPACE RESEARCH ORGANIZATION
TRIVANDRUM-695022, INDIA
TEL.: +91-471-256-3122 (Off.)
FAX: +91-471-270-6535
EMAIL: [c_vineeth\[at\]vssc\[dot\]gov\[dot\]in](mailto:c_vineeth@vssc.gov.in),

AREAS OF SPECIFIC RESEARCH INTEREST

Atmospheric & Space Sciences: *Optical and Radio Remote Sensing of the Terrestrial and Planetary Ionospheres, Solar-Terrestrial Physics, Coupling processes in Atmosphere-Ionosphere region, Sun-Earth Connection, Space weather etc..*

PROFESSIONAL EXPERIENCE

Scientist/Engineer 'SF' (Jan 2020 - Present)
SPL, VSSC, ISRO, Trivandrum, India.
Scientist/Engineer 'SE' (Jan 2016 - Dec 2019)
SPL, VSSC, ISRO, Trivandrum, India.
Scientist/Engineer 'SD' (Jun 2011 - Dec 2015)
SPL, VSSC, ISRO, Trivandrum, India.
Research Associate (2009-2011)
SPL, VSSC, ISRO, Trivandrum, India.
Post Doctoral Fellow (2008-2009)
Stanford Research Institute, CA, U.S.A.

EDUCATIONAL QUALIFICATIONS

Ph.D Physics (Space Physics) - 2008
Space Physics Laboratory, VSSC, ISRO
(University of Kerala, Trivandrum, India).
MSc. Physics (Electronics) - 2002
Department of Physics, Cochin University of
Science and Technology, Cochin, India.
BSc. Physics - 2000
University of Calicut, Calicut, India.

PUBLICATIONS & PROCEEDINGS

✓ Peer Reviewed International Journals	: 37
✓ International Proceedings	: 27
✓ Conferences/Symposia Presentations	: 25
✓ Total citations	: 375 (h-index : 11, i10-index: 13)

AWARDS & HONORS

1. **Zeldovich Medal**, Russian Academy of Sciences and COSPAR, 2014 (**first Indian to receive**).
2. **NASI-Young Scientist Platinum Jubilee Award**, National Academy of Sciences, India, 2015.
3. **INSA Young Scientist Medal**, Indian National Science Academy, 2014.
4. **Kerala State Young Scientist Award**, Govt. of Kerala, 2013.
5. **Young Scientist Presentation Award**, International Symposium of Equatorial Aeronomy, Peru, 2012.
6. **Elected Young Associate**, Indian Academy of Sciences, 2011.
7. **URSI Young Scientist Award**, International Union of Radio Sciences (URSI), 2011.

OTHER RECOGNITIONS

1. **Solicited Speaker** in the 39th and 42nd *Scientific Assembly of COSPAR, 2012 & 2018.*
2. **Post Doctoral Fellowship** in *Optical Instrumentation* from *SRI International, CA, USA, 2008.*
3. **Two Best Paper Awards** from *Indian Council for URSI (INCURSI), 2005.*

PROFESSIONAL MEMBERSHIPS

1. *Member of American Geophysical Union (AGU).*
2. *Member of International Union of Radio Sciences (URSI).*
3. *Associate of Committee on Space Research (COSPAR).*
4. *Life Member of Kerala Academy of Sciences (KAS).*

REVIEWER FOR INTERNATIONAL JOURNALS

1. *Geophysical Research Letters,*
2. *Annales Geophysicae,*
3. *Journal of Geophysical Research,*
4. *Journal of Atmospheric and Solar Terrestrial Physics,*
5. *Journal of Earth System Science,*
6. *Indian Journal of Radio and Space Physics,*
7. *Advances in Space Research,*
8. *Radio Science,*
9. *Current Science,*
10. *Journal of Indian Geophysical Union,*
11. *Acta Astronautica.*

INVOLVEMENT IN ISRO'S MAJOR PROJECTS

1. **Principal Investigator** of the **Upper Atmospheric Visible Airglow Spectral Imager (UrVASI)** payload for ISRO's forthcoming **DISHA (Aeronomy satellite)** Mission.
2. **Principal Investigator** of the **Narrow band oxygen Airglow detection in the Venusian Atmosphere (NAVA)** payload in the forthcoming **Venus Mission.**
3. **Principal Investigator** of the payload, "**ATomic Oxygen Sensor (ATOXS)**" for the forthcoming **PS4 as Orbiting Laboratory Mission.**
4. **Co-Investigator** of the **Solar Occultation Experiment** payload in the forthcoming **Venus Mission.**
5. **Co-Principal Investigator** of the **Tri-Methyl Aluminium (TMA)** cloud release experiment conducted as part of **SOUREX** programme.
6. **Focal Point** for coordinating the science experiments proposed for **PS4 Mission.**
7. **Project Manager, Airglow Photometers** of Indian network for Space Weather Impact Monitoring (**InSWIM**) Programme.

INSTRUMENTATION

- ✓ Involved in the conceptualization, initial design and laboratory experiments of a Satellite payload, **Limb Viewing Hyper Spectral Airglow Imager (LiVHySI)**, for Indian Space Research Organization's (ISRO) forthcoming small satellite program.
- ✓ Designed and developed a **Portable Multiwavelength Photometer.**
- ✓ Designed and developed a **Compact Airglow Photometer.**
- ✓ Experience in the optical design of a **High Resolution Echelle Spectrograph** for different applications in upper atmospheric/ionospheric research.
- ✓ Designed and developed a **Fabry-Perot Interferometer (FPI) based Multiwavelength All sky Airglow Photometer (MAAP).**
- ✓ Designed and developed **Intensified CCD based All Sky Airglow Imager (ASAI).**
- ✓ Developed a **Nighttime Photometer** as a part of the Annular Eclipse Campaign (Sooryagrahan, 2010).
- ✓ Expertise in optical alignment and operation of **Fabry-Perot Interferometer (FPI), Photometer, Spectrometer and Grating based Monochromator.**

CURRENT RESEARCH INTERESTS

Exploring new cutting edge experimental methods for investigating various processes in terrestrial and planetary upper atmosphere-ionosphere region. Investigation of (i) Various type of neutral and plasma processes prevailing in terrestrial/planetary atmospheric with emphasis on Sun-Earth interactions (Space weather), (ii) Coupling processes in the upper atmospheric system over low latitudes and also the High-latitude Low-latitude coupling and (iii) Sudden Stratospheric Warming (SSW) and its equatorial effects (iv) Various dip equatorial plasma phenomena like Equatorial Electrojet (EEJ), Counter Electrojet (CEJ), Equatorial ionization anomaly (EIA), Equatorial Spread-F (ESF), Equatorial Temperature Wind anomaly (ETWA) etc. and their possible connection with both local and global energetic/dynamical variabilities.

PARTICIPATION IN MAJOR EXPERIMENTAL

Name of the Campaign	Place and Period	Major Responsibilities under taken
Solar Eclipse Campaign (Sooryagrahan 2019)	Indian Peninsular Region, December 24-26, 2019	Co-ordination and operation of Fluxgate magnetometers at 5 different locations
ICARB Ship Cruise 2018	Indian Ocean January 15 2018-Feb 14, 2018	Observation using Nighttime Photometer and GPS receivers
Solar Eclipse Campaign (Sooryagrahan 2010)	Space Physics Lab, VSSC, Trivandrum, India January 14-17, 2010	Development of a Nighttime Photometer and Operation of various Optical Instruments.
Climate And Weather of Sun-Earth System (CAWSES) Campaign	Space Physics Lab, VSSC, Trivandrum, India March 01-April 30, 2006	Operation of Optical Instruments, H.F.Radar, Meteor Wind Radar, Magnetometer and Ionosonde
Equatorial Spread-F (ESF) Campaign	Space Physics Lab, VSSC, Trivandrum, India March 01-31, 2005	Operation of Optical Instruments, H.F.Radar, Magnetometer, Ionosonde and Radio beacon receiver

SUMMARY OF THE PH.D THESIS

Thesis title: *Aeronomy of the Coupled Mesosphere-Thermosphere-Ionosphere Region over the Magnetic Equator in India*

The prime objective of my doctoral work was to investigate the coupling/interactive processes in the terrestrial upper atmosphere namely the Mesosphere-Thermosphere-Ionosphere (MTI) region, using *Optical and Radio Remote Sensing* techniques. The research work had been carried out at **Space Physics Laboratory, Vikram Sarabhai Space Centre (VSSC), ISRO**, located at **Thumba** (8.5°N, 77°E), a geomagnetic dip equatorial station in India. The daytime optical remote sensing instrument namely, the *Multi-Wavelength Dayglow Photometer (MWDPM)*, radio remote sensing instruments like *Meteor Radar, Ionosonde and GPS receivers* were the main instruments used for the studies reported in this thesis. In addition to these, data from various satellite measurements and data from NCEP/NCAR reanalysis product across the globe were also been used for analyzing the solar activity, stratospheric energetics/dynamics etc. The combination of these techniques along with the unique geophysical location of Thumba makes this thesis work '*first of its kind*'. Perhaps, this could be considered as the first PhD thesis from India, which deals with most of the scientific objectives of the *Climate And Weather of Sun-Earth System (CAWSES-INDIA)* program

IMPORTANT RESEARCH OUTCOMES

- ✓ *First systematic measurement of daytime mesopause temperature from magnetic equator and its comparison with meteor radar derived temperature (Geophys. Res Lett., 2005).*
- ✓ *Signatures of Atmosphere-Ionosphere coupling over the magnetic equator (Geophys. Res Lett., 2007).*
- ✓ *Evidence for strong vertical coupling between the mesopause and lower thermospheric regions during the special plasma process called the Equatorial Counter Electrojet events, through gravity wave induced vertical winds (Geophys. Res Lett., 2007).*
- ✓ *Effects of moon shadow during solar eclipse over the equatorial upper atmosphere inferred through the optical emissions from space (J. Geophys. Res., 2008; J. Geophys. Res., 2011).*
- ✓ *First direct evidence for the signatures of polar Sudden Stratospheric Warming on equatorial upper atmosphere (Geophys. Res Lett., 2009, Ann. Geophys., 2009).*
- ✓ *First ever evidence for the tropical connection to the polar Sudden Stratospheric warming through quasi 16-day planetary wave (Ann. Geophys., 2010).*
- ✓ *Wave-Tidal interactions and its possible implications on equatorial upper atmospheric electrodynamics (J. Geophys. Res., 2011).*
- ✓ *First time' measurements of short and long-term daytime mesopause temperature over Trivandrum using Multiwavelength Dayglow Photometry (Earth Planet Space 2010; J. Geophys. Res., 2011).*
- ✓ *First direct evidence for the lowering of centroid of thermospheric O¹(D) 630.0 nm emission over the geomagnetic equator (Adv. Space Res., 2011).*
- ✓ *First observational evidence for the reversal of zonal wind and enhanced gravity wave activity at mesospheric altitude during CEJ events (J. Atmos. Solar Terr. Phys., 2012; Ind. J. Radio & Space Phys., 2012).*
- ✓ *Evidence for the role of Stratospheric Sudden Warming in modulating the occurrence time of the Equatorial Spread-F (J. Geophys. Res., 2017).*

RESEARCH SUPERVISION

M.Sc Tech. (Photonics): Supervised the M. Tech project works of Ms. Adhila. T. K and Gayathri Mohan. K. V, May 2013.

M. Sc (Physics): Supervised the M.Sc Project works of 10 Students.

INSA-NASI-IASc. Summer Fellows, Supervised the Summer Project works of 6 Students.

INVITED TALKS

1. Atmosphere-Ionosphere coupling over the magnetic equator (*Aryabhata Research Institute for Observational Sciences (ARIES), Nainital, Uttarakhand, India, 2007*).
2. Multiwavelength Dayglow Photometry: Instrumentation and Applications (*Engineering Systems Division, SRI International, California, USA, 2008*).
3. Effects of Geomagnetic storms on the upper atmosphere (*Molecular Physics Laboratory, SRI International, California, USA, 2008*).
4. Coupling Processes in the Equatorial Mesosphere-Thermosphere-Ionosphere Region (*Space Physics Research Laboratory, Embry Riddle Aeronautical University, Florida, USA, 2009*).
5. Space Science Research in India (*M.E.S. Kalladi College, Palakkad, Kerala, India, 2009*).
6. Space Research in India (*Jyothi Engineering College, Thrissur, Kerala, India, 2010*).
7. Radiation Budget of the Earth (*St. Paul's College, Cochin, Kerala, India, 2011*).
8. Solicited Speaker, (*39th COSPAR assembly, Mysore, 2012. India*).
9. Optical Remote Sensing of the Earth's Near Space Environment (*26th Kerala Science Congress, Wayanad, Kerala, India, 2014*).
10. Solar-Terrestrial Environment: Some Intriguing Aspects (*M.E.S. Kalladi College, Palakkad, Kerala, India, 2014*).
11. Solar Terrestrial Environment: Some Intriguing Aspects, (*Cochin University of Science and Technology, 2014*).
12. Optical Remote Sensing of the Terrestrial Upper Atmosphere, (*80th Annual Meeting, Indian Academy of Sciences, Chennai, 2014*).
13. Poles to the Equator: Some Intriguing Connections, (*National Seminar on Advances in Space Science and Space Missions, NSS Hindu College, Changanacherry, Kottayam, 2015*).
14. Light from Space, (*VTM NSS College, Dhanuvachapuram, Thiruvananthapuram, 2015*).
15. Chemiluminescence from Earth's Near Space, (*K. G. College, Pamapdy, Kottayam, 2016*).
16. Optical Emissions from Space: Applications, (*NSS College, Nilamel, Kollam, 2016*).
17. Invited Speaker, (*National Space Science Symposium, Dibrugarh, 2014*).
18. Invited Speaker, (*National Space Science Symposium, Thirunananthapuram, 2016*).
19. Solicited Speaker (two papers), (*42nd COSPAR Assembly, held at Los Angeles, California, USA, 2018*).
20. Space Research in India, (*Devamatha College, Kottayam, 2019*).
